

Region 10 Regional Workforce Development Board Process to Fill Open Seats

CEO Board:

The WIOA Directors in our region (Carla Andorf, Scott Mather, Carlos Vega, Holly Mateer, Monica Brockway and Terry Rhinehart) met during the week of February 24 and discussed some options/ideas for our open board seats. We wanted to share these ideas with the CEO board to consider. We can assist with reaching out to whomever the CEO Board would like us to in order to obtain their application.

Labor Seat:

Chris Busch with Masons (Democrat/Male)

He has always come across as positive and has worked well with IowaWORKS in the past.

Business Seat:

- Jeff O'Brien with Prull Mechanical Contracting; he is their Virtual Design and Construction Manager.
- Dale Larsen with MSI Mold Builders; he is their Human Resources Manager.
- Ty Reckling with Metro Pavers; he is their Director of Process Improvement and Organization Development.

We are unsure of political party affiliation for the business seat individuals as we haven't spoken with them.

Please let us know if you'd like the WIOA Leadership Team to reach out to and request applications from any of the above.
