

East Central Iowa Workforce Development Board

Youth and Young Adult RFP

Question:

Page 7. Funding availability. Under this section the youth budget is shared as a portion for in school youth (25%) and a portion for out of school youth (75%). The federal WIOA program requires no more than 25% youth funding to be spent on in school youth, but we can spend up to 100% of funding on out of school youth. Will we be held to spending 25% of funding on in school youth or will there be flexibility on how much we spend on in school and out of school, as long as we stay within the federal guideline of expending no more than 25% of youth funding on in school youth.

Answer:

You will not be required to spend 25% of funding on in-school youth. There is flexibility as long as you stay within the federal guideline of expending no more than 25% of youth funding on in-school youth.
