Background

On July 22, 2014, President Barack Obama signed into law the Workforce Innovation and Opportunity Act (WIOA). WIOA is designed to improve and streamline access to federally funded employment, education, training, and support services. Congress passed the WIOA by a wide bipartisan majority and it is the first legislative reform in 15 years of the public workforce system.

Every year, the key programs forming the pillars of WIOA help tens of millions of jobseekers and workers to connect to employment opportunities and acquire the skills and credentials needed to obtain them; and it connects employers with skilled workers needed for global economic competition. The enactment of WIOA provides an opportunity for reforms to ensure the One-Stop Delivery System (also known as the American Job Center System) is job-driven, responding to the needs of employers, and preparing workers for jobs that are available now and in the future.

The terms and conditions of this RFP may change based on WIOA legislation. The successful respondent to this RFP will be expected to remain informed on WIOA regulations and requirements as they pertain to youth. For more information on specific WIOA Youth Programs please visit <https://www.dol.gov/agencies/eta/youth/wioa-formula>.

Northeast Iowa Youth Program Focus

The objective of our youth programs is to guarantee that every young individual possesses fundamental skills, work readiness capabilities, and occupational proficiencies essential for success in the workforce. Our services prioritize career development by fostering awareness among youth regarding in-demand occupations prevalent in high-growth industries within the local Northeast Iowa area. This includes delineating career pathways leading to these occupations and identifying local employers who actively recruit for these roles. Our training initiatives are specifically designed for occupations in high demand, ensuring substantial growth opportunities.

A minimum of 75% of the youth served must be out-of-school youth and will include strategies to engage disconnected youth to ensure that youth attain a high school diploma or equivalent. Furthermore, we are committed to equipping them with occupational skills, acknowledged through a postsecondary credential, and facilitating successful placement and retention in either employment or education/training activities.

For in-school youth, our services extend to implementing dropout prevention strategies, ensuring they obtain their high school diploma or equivalent, along with a recognized postsecondary credential. Additionally, transition strategies are integrated to guide them towards postsecondary education, employment, military service, or apprenticeships.

Youth services should encompass the following goals developed by the Northeast Iowa Youth Committee:

- Integrate technology in educational programs to enhance learning opportunities and ensure that Title I youth have access to the digital resources necessary for academic success.

Funding Allocation Guidelines for Youth Services

In the allocation of Youth funding to your organization, the Board has established clear guidelines to ensure a balanced and impactful utilization of resources. We request that no more than 60% of the allocated funds be directed towards staff and overhead expenses, while a minimum of 40% should be dedicated to direct participant costs. This breakdown should be followed within your budget.

Allocation Breakdown

1. Direct Participant Costs: At Least 40%

It is our collective goal to enhance the direct benefits and services provided to participants. Therefore, we ask that a minimum of 40% of the allocated funding be designated for direct participant costs. This includes any expenses directly tied to improving and enriching the experience of program beneficiaries.

2. Staff and Overhead: Not to Exceed 60%

To ensure fiscal responsibility and efficiency, we request that staff and overhead expenses do not surpass 60% of the total funding allocation. This category encompasses salaries, benefits, and any administrative costs associated with running the program. Striking this balance is crucial to optimizing the impact of the services provided.

Flexibility and Collaboration

While these guidelines serve as a framework, we understand that unique circumstances may arise. We remain open to discussions that address individual needs, ensuring a collaborative approach that aligns with both your organizational objectives and the overarching success of the Youth program.
