\* WINTAC is the Workforce Innovation Technical Assistance Center, a technical assistance center supported by the Rehabilitation Services Administration to support State Vocational Rehab agencies in the successful implementation of WIOA. We were selected because of the work we've already done to make WIOA work in our local region 14 with our partners (Voc.Rehab, Dept. for the Blind, Adult Ed, Wagner-Peyser and Adult/Dislocated Worker/Youth providers. The planners for the visit saw the Creston office as a "strong example of common service flow. WINTAC will also visit 3 other states, but the Creston office is their only visit in Iowa. We feel honored to be chosen to show them our model.
