

Kirkwood High School Completion Programs has had some changes since the end of PY19. Terry Rhinehart is the manager over the program. He comes to us from Anamosa State Penitentiary where he worked as a math instructor. Before that, Terry was in charge of our alternative program in Monticello at the Jones County Regional Center.

Stephanie Hasakis joins us as the ESL Program Supervisor.

Charles Wills came and visited with our students about the Light Manufacturing Program at Goodwill Industries. We are hoping students will see this as a valuable opportunity to help them with employment.
